BOYD HOLDS DISTRICT HEALTHCARE COUNCIL MEETING

TALLAHASSEE-Congressman Allen Boyd (D-North Florida) today hosted a meeting with the District Healthcare Council.

"Access to quality, affordable healthcare is a critical part of American life," said Congressman Boyd. "All Americans deserve the best healthcare possible."

At today's meeting, Congressman Boyd had two main objectives for the District Healthcare Council. The first was to discuss the current state of healthcare in Florida and the second was to discuss the current state of healthcare in the United States.

Congressman Boyd formed the District Healthcare Council in 2005 to tackle healthcare issues locally. The council is made up of representatives from various healthcare professions and community organizations.

"The District Healthcare Council assembles people from all different professions and points of view so that we can get a comprehensive view of the healthcare issues facing our community."
